

HE WILL NEVER SEE THE "EYES ONLY" MEMO THAT PROVES HIS PRESIDENT LIED

By the time the notorious secret "Downing Street Memorandum" was leaked to the press it was too late for this soldier.

It was too late for 17,200 other Americans already killed or wounded or mutilated in Iraq.

A few "Eyes Only" insiders got the truth back in July '02. The rest of us got "Lies Only."

All the while the President's men were beating the drum for war, they were sitting on a classified "National Intelligence Estimate." This NIE stated with perfect clarity that their war-mongering warnings about Iraq were lies.

Is fabricating lies to start a war an impeachable crime?

In a poll taken this month, 50% of the American people now say "Yes, if President Bush lied to justify his war, he should be impeached."

That number keeps growing. The evidence keeps building. This President must be impeached.
